Art Unit: 3743

*Election/Restriction*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 9 through 14, drawn to a cold cranking simulator including a heat conveying member, classified in class 73, subclass 54.43.
  - II. Claims 15 through 18, drawn to a method of controlling the temperature of a rheological test sample, classified in class 165, subclass 11.1.
2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus that is Invention I as claimed can, for example, be used to practice a process which, unlike the process that is Invention II, lacks the steps of positioning a temperature sensor in monitoring proximity to the test sample receptacle and of controlling the electric current supplied to the heat exchanging element in response to the measured temperature of the receptacle, for example.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and because, for example, the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 3743

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
